The subject of the afternoon's address had special fittingness to the occasion because Wilherforce University was founded by Christian men who looked into the future and aw the possibility of their race in the future progress of the Nation and the world. Then, the sneaker, taking an ontimistic view of history and the social order, traced how human freedom in the liberation of the slaves of Il nations came through such men as Thomas Clarkson, William Wilherorce and Lincoln, and how the world's freedom in self-government spread from nation to nation, especially through the influence of American leadership, finding its culmination ow in the principle of the right of self-determination heing worked out in the Peace Conference. science, and the proved religious evaluation of the Bible. Progress is being made in the develorment of inlustrial democracy. Events, even in Russia, as well as in Great Britain and the United States, point to the time when there shall be a wider diffusion of human happiness in the possibility of every man owning his own nome and sharing his equitable proportion of the products of industry. Human life is being conserved through leadership in modern medicine and sanitation. The temperance movement is fast reaching its triumph n America, and the leaders in the prohibition movement have a world conquest for the redemption of humanity from the curse of the rum-power. International peace has guarantees for Mr and Mrs. John Foley, of Dayton, the future in the work already accomplished in peace education, practical arbitration of international disresult of injuries received when he putes, and in the League of Nations which is being so ably champloned by America. The missionary cause has a brighter outlook today than ever before in the history of the Christian church, being promoted by great denominational and co-operative church movements, like the Centenary move ment of the Methodist Church. Religious education has had a most prom inent part in preparing the leadership movements which look to a better world in which to live and in which Christ is yet to be crowned King of Kings in the hearts of men and upon the thrones of the nations.

ills begin in the stomach and end in the stomach. Good digestion means good and poor digestion means bad The minute your stomach fails to properly dispose of the food you eat, troubles begin to crop out in various forms. Indigestion and dyspepsia are the commonest forms, but thin, impure blood, headaches, backaches, pimples, blotches, dizziness, belching, coated tongue, weakness, poor appetite, sleeplessness, coughs, oclds and bronchitis are almost as common There is but one way to have good health, and that is to put and keep your stomach in good order. This is easy to do if you take Dr. Pierce's Golden Medical Discovery. It is a wonderful tonic and blood purifier, and is so safe to take, for it is made of roots and herbs. Dr. Pierce, of Buffalo, N. Y., stands behind this standard medicine, and it is good to know that so distinguished a physician is proud to have his name identified with it. When you take Golden Medical Discovery, you are getting the benefit of the experience of a ctor whose reputation goes all around the earth. Still more, you get a temperhave been strictly temperance medicines. periences. If piles are torturing you, get and use Pierce's Anodyne Pile Ointment, The quick relief it gives is hard to believe until you try it. Mere Incident in Cat's Life. You're not obliged to believe the fol-

lowing story, nor even strain your imagination over it. The Bath (Maine) Times tell It. About four years ago a Bath man went smelt fishing off a wharf on the riverside and when he returned leaned up his pole on which was his fishing line in a corner of the kitchen. Attached to the hook was a minnow for live bait and this was wriggling on the hook, when the man's pet black coon cat espied the fish and made for it. Before the owner could prevent, the cat had swallowed the fish and the hook. It was impossible for the man to pull out the hook without killing his pet so he cut the line, leaving the bait and the book and a small portion of the line within the coony. The cat seems to have assimilated the book, for she never has shown any symptoms of discomfort from her strange meal and is still alive and in apparent good health.

Japanese Wrestlers. Because of their enormous struce

and girth it has often been assumed by foreigners that Japanese wrestlers are a race apart, a strange little group of native giants handed down from antiquity. As a matter of fact the wrestlers, recruited from the fishing. farming and forester classes, have splendid physique to begin with, and become strong and muscular through their long training and the encour agement that is given to their voraclous appetites. Friends are very fond of giving them big banquets and are amused to see how much they can eat. One prominent trainer, when invited by his backers to a dinner, took all his students along with him, saying, "All my followers come along with me who can drink a gallon of sake aplece." There is a touch of the Rabelaisian in it, especially when one contrasts it with the usual foreign impression of the dainty tea-sipping, cherry-feting Japanese.

Changes in Time's Reckoning.

So perfect was the Julian style of reckoning that it prevailed generally It's among the Christian nations and remained undisturbed till the minutes had amounted in 1582 to ten complete days, the vernal equinox falling on the 11th instead of the 21st of March. This shifting of days has caused great disturbance by unfixing the times of the celebration of Easter, and hence of all the movable feasts, and accordingly Pope Gregory, with the aid of Clavius, the astronomer, ordained that ten days should be deducted from the year 1682 by calling what would have tura; you can get this famous old been the 5th of October according to other ingredients at a small cost, all the old calendar, the 15th of October. 1582, by the new one. It was further ordained that every hundredth year should not be counted as a leap year. excepting every fourth hundredth beginning with 1600. In this way the difference between the civil and natural year will not amount to a day in 3,000 years.

Choose Carefully.

It is impossible to read every book you see. You must choose. The important question is, What decides your choice? Are you reading a certain book because you happened to find it dropped into the easy chair after your day's work? Or are you reading it be cause it is advertised as "one of the six best sellers," or because you hap pened to like the frontispiece?

The choice of books means a great deal today. No matter how much time you spend on reading, there is much choose wisely, since you haven't time

Observing that one of the caves was protected by a breastwork of stone and timber, he entered and discovered, among scattered saddles, spurs and cartridge shells, eight skeletons. Seventeen more were found in the other caves, but there was no clue to show how these men had perished. A sack of tobacco was there, and empty flour bags, coffee cups and pails which bore tabels indicating that they were on the market no longer ago than 1903. THE HEALTHFUL GAME OF did. QUOITS.

Many leading business men find that it pays well for them to "play" occasionally-that it recreates their

Pretty nearly the only physical whole document as he understands it. recreation that presents itself as open to all is the old fashioned game of "Quoits"-or in plainer terms pitching horseshoes. If it is really bodily exercise that one wants, he need not turn up his nose at the inferior or common name of the play, for scarcely any other game will afford him more complete development of every joint and muscle of his anatomy. The aristocratic game of golf isn't in it, in this respect, and isn't much more than a walk-around looking for a walnut-size ball.

-We have noted with interest the published accounts of our local Quoit Club, and of some of the tournaments they have had with neighboring clubs, and we are sure the members enjoy the sport, and are benefitted by the recreation. It is a pleasant and healthful sport. Let us have more Quoit Clubs. There should be one in every school district in Greene

The following article on "the Game United Presbyterian, to stimulate interest on the subject:

Most of the ministers were raised in the rural districts. Now and then but the most of them come from the farms and the small towns. In rural communities, especially, years ago, sport, consequently the most of the ministers know something about the game. This may, in some measure, account for the popularity of the proposes this "something new." game among ministers and also for Thereby Senator Borah stumbles fest in the game.

The fact that it is a good, clean, outdoor sport that does not call for cause. It affords a pleasant relaxation with more exercise than the onlooker would suppose, but I do not believe that we have yet hit upon the real

connecting link. It gives companionship with men. Most ministers have little chance to associate with men. The men of their dustrial life of the community and are seldom at home when the pastor makes his ealls. Most churches are to a very large extent operated by woman power, and have, in most cases, been well run. The thing, however, that I am saying is that there are times when there is a longing that comes near being hunger for the companionship of men-real blooded men, men of muscle and brain and action. He feels that he must satisfy this craving and get some be thrown into leader of the forces of his community. The quoits game in some measure supplies this need and I am inclined to think that this is the great link in the chain for which we have been

However, another helpful thing may be said of this game. The formalities of regulated society are for the time being lost. All meet together on the same level. No one by virtue of his wealth or education is elevated for the admiration and the worship of his fellowman. It is not 'Your Honor" or "Reverend" "Mister," but just plain "Judge," and usually just the last name without any preliminary or qualifying words. It is a soothing thing to get away from the forms of address which are so necessary in our complicated civilization and get to the place where it is just "Bill." and "Jim," and It is a stimulating thought to know that under the title of the jurist or the physician or the minister there is a heart that beats true in love, sympathy, and kindness. T. find that men are at heart just plain everyday sort of people is a comforting thought. The prohibition of private combats and the authority of courts for the settlement of disputes between individuals have always been recognized as the fundamental and absolutely essential basis of modern life. There is now a general realization of the urgent necessity for extending the same principle to nations residing on the same planet, and for the first time in human history there is now an opportunity to accomplish it. If we should permit any selfish motive to prevent our taking advantage of this opportunity, we shall be making a terrible mistake and assuming a terrible responsibility. Oversize truck tires are the na tural result of oversize pleasure tires and have also proven themselves a tremendous advantage. The advantage of the oversize passenger car tires lies principally in the additional mileage and ease of riding, while on the truck they serve a triple purpose, besides giving a higher mileage, tire for tire.

On account of the lessened vibration they ease the strain on the chassis and engine, thereby saving gasoline. The same lessened vibration, cutting down the wear on the truck, keeps it on the road, out of the repair shop and gives a longer servive of life.

As about half of the ordinary truck tire is not available for proper ser-vice, the remaining rubber after the tire has been worn away is not sur-

ficient to properly cushion the truck. The extra rubber type comes into its own for approximately half as much again of rubber as the ordinary type, and that half being all available for wear. It gives practically double the service of the ordinary type.

Oliver Goldsmith's Description of as When He Wrote It.

"In winter, when their canals are rozen, every house is forsaken, and all people are on the ice; sleds drawn by horses, and skating, are at that ime the reigning amusements," Oliver Goldsmith wrote of the Dutch. "They have boats here that slide on the ice, and are driven by the winds. When they spread all their sails they go more than a mile and a half a minute, and their motion is so rapid the eye can scarcely accompany them. Their ordinary manner of traveling is very cheap and very convenient; they sail in covered boats drawn by horses; and In these you are sure to meet people of all nations. Here the Dutch slumber, the French chatter, and the English play cards. Any man who likes company may have it to his taste. For my part I generally detached myself from all society, and was wholly taken up in observing the face of the country. Nothing can equal its beauty; wherever I turn my eye, fine houses, elegant gardens, statues, grottos, vistas, presented themselves; but when you enter their towns you are charmed

ANOTHER BIG HIT IS MADE BY "LET HER GO"

Miss Catherine Shoup was just as charming Tuesday night as in her debut, when "Let Her Go," the chummy musical review being given by the Elks duplicated its first night success at the Opera House Tuesday ev-

ening.
The parts were carried just as cleverly, and perhaps with a little more finesse considering the confidence given by the successful opening night presentation. The clever, original and beautiful stage setting and the prettiness occasioned by the costuming, won the admiration of the audience and of several out-of-town people who witnessed the production Tuesday night. The scene and the costuming was the work of George R. Bocklet.

The play "Let Her Co." has been unusually popular here so much so. that it will be repeated Wednesday The play was written by Ray Lee Jackson, the director, who is a clever play wright and many of his offerings have been interpreted in the East. Robert Hurley, made his debut as a director and performed the role as a veteran.

Richard O. Fay was responsible for the clever program cover design and the posters used to advertise the production. Mr. Fay has had profossional experience on the stage and he was easy in his comedy part. He wore a costume he made himself for the play

Do You Know the Joys of Perfect Health?

We are told that to those who are so fortunate, it means the possession of a treasure, the value of which cannot be measured in dollars and cents.

In suggesting that you use more eare in the selection of your daily bread, please do not understand us to mean that good bread is a "cure-all," or that bread alone will give you perfect health.

But most folks eat entirely too much heavy food—a great tax on the digestive organs. Bread such as

KRUG'S BREAD

BUTTERNUT or HOLSUM

is an evenly balanced food-containing all of the elements necessary for nourishment of body or brain and should form the foundation for every meal.

KRUG'S BREAD is light and flaky, made clean, made right, made honestly and of the purest ingredients

KRUG'S BREAD can be secured fresh from the ovens at your neighborhood grocer's.

Public Sales

Have your sale announced FREE in this column early, so that you may claim your date and others will stay off of it. These ads are run every day and are gratis with the large display advertising. We also furnish sale bills without charge. Let us tell you about it.

PUBLIC SALE advertising in the Gazette and Republican bring the crowds. In these days of automobiles the farmer has no time to stop along the road to read sale bills. He is coming to depend upon these papers to notify him of the sale dates and articles to be offered for sale. It's the buyer from a distance who sees your ad in this paper, who jumps into his auto and hustles to your sale, who pays what your stuff is worth. Your neighbor no longer can stand around and pick off what he needs at an absurd price, as he does when you have not properly advertised, and gotten a good crowd. Use the Gazette and Republican if you want the worth of everything you offer. Don't try to save on your advertising.

SEEMINGLY IMMUNE TO PAIN

Australian Aboriginals Suffer Little Inconvenience From Even the Most Severe Injuries.

The sight of their own blood will send Australian aboriginals into hysterics, writes a correspondent in the Australian Bulletin, but I am convinced they feel little or no pain from even the severest injury. On one occasion, when dragging a young girl from a shark that had her foot in its laws, she looked up and remarked casually, "Mine tink it dat shark been tak it mine foot!" The sight of the blood upset her for a while; but a few hours later she was playing euchre with the rest of the camp. The wonder is that wounded blacks don't more often bleed to death, for they stake no special means to prevent it. The most approved method used to be to cover the wound thickly with fine mangrove ash, and over that a favor

of damp clay, which was not removed for several days. I never saw them wash a wound, their theory being that the blood heals the wound. In later years they all learned to go to a doctor when injured, but thirty or forty years ago one saw dreadful deformitles resulting from accidents and fights. On Fraser's island in the seventies there was a man whose leg had other case was an old woman whose arm had been broken between the wrist and elbow. She /used to pry the bones one against the other, and she could give a terrible blow with the

loose hand.

IF BACK HURTS

Take a glass of Salts to flush Kidneys if Bladder bothers you .- Drink lots* of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and uri-

nary irritation. The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy: ake a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithiawater drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

Tired, Overworked Mothers What You Need is Vinol

War conditions have made the demand upon a mother's time and energy unlimited. In their zeal to do all in their power for their loved ones, they continually overwork and are soon in a nervous, run-down condition. Vinol, the non-secret cod liver and iron tonic, will build you up and make you strong. HERE IS PROOF

Whitman, Mass.

"I suffered from a nervous, run-down condition and loss of strength so it was hard for me to get around and do my work. After other medi-cines had failed to help me Vinol restored my health and strength and I heartily recommend it to anyone suffering from a nervous, run-down condition."-Mrs. R. M. Little.

QUICK RELIEF -FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic con-

tipation and terpid livers.
Dr. Edwards' Clive Tablets do not contain calomel, but a healing, soothing vegetable lanative.

No griping is the "keynote" of these fittle sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to
